

# THIRTY-SIX YEARS

We have been in the business for 36 years. During that time we have not only continually made new customers, but have kept the old ones. Our aim is that each and every one of our customers shall be satisfied, and we make every effort possible to please them. The consequence is that our business has grown beyond all expectations. We now have five large houses, with the largest list of satisfied customers in the country. Come in and see us.

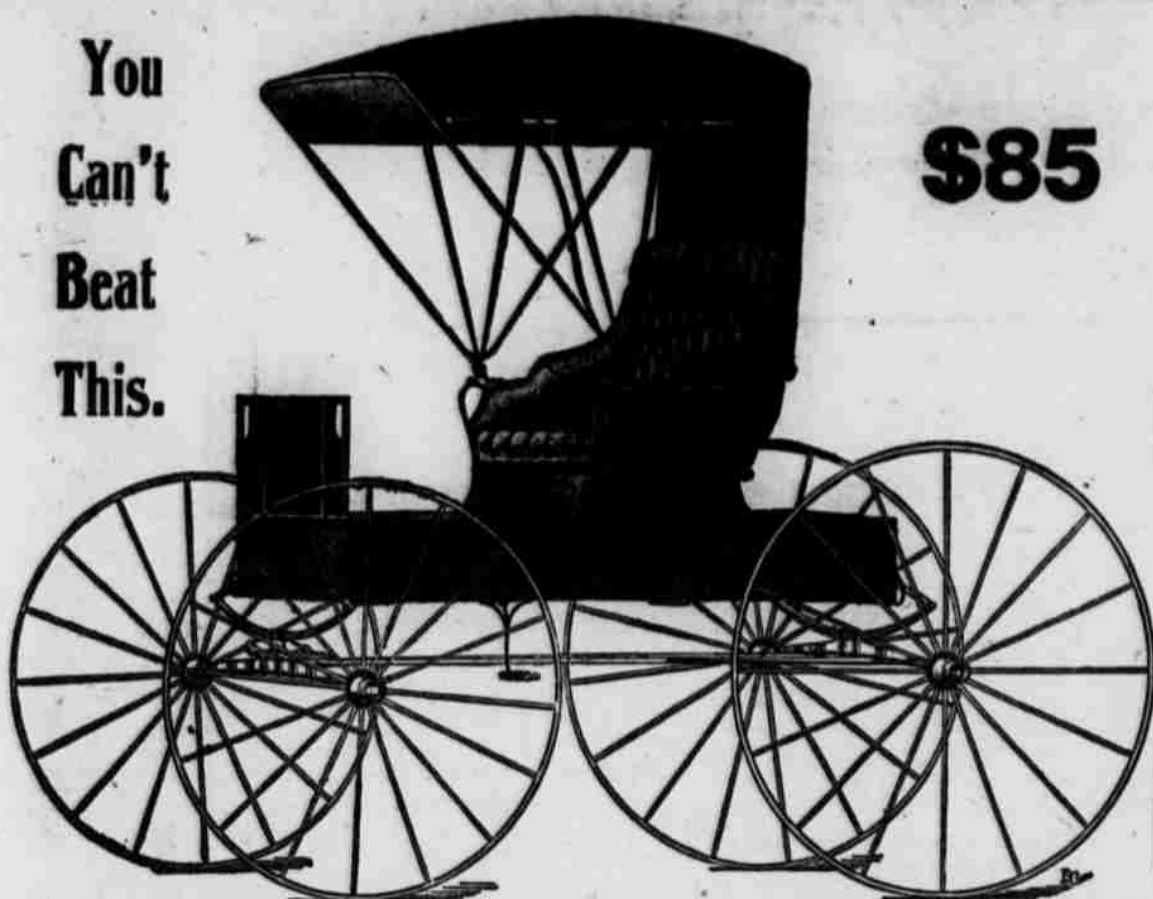

## John Deere No. 9 Edge Drop Planter.

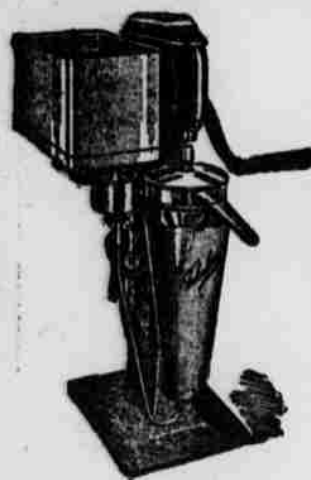

Combines extreme accuracy of drop with simplicity and convenience. Fewer parts and less working joints than any other planter. Always ready for either hilling or drilling.

You  
Can't  
Beat  
This.

\$85

Here is a rubber tire, leather quarter top buggy of the very latest design, with a beautiful automobile seat, quick shifting top and backed by a "HOOD" guarantee. By removing four thumbscrews this top can be taken off in a moment, and you will have a very handsome open buggy. This makes it very convenient, as a great deal of the time you can use the buggy without the top, and save wear and tear on the buggy as a top is hard on any buggy.

Baxter Springs, Kas., R. F. D. No. 5, Feb. 11, '09.  
To Whom It May Concern:

I bought a No. 4 Sharples cream separator from the A. Hood & Sons Implement Co. in June, 1907, and have used same every day since, and the machine is in practically as good condition today as when I took it out. I have paid on repairs only 5 cents. I have kept a close record of what my cows have brought me, and find that I have made 55 pounds of butter more on the cow per year than I did before I got the machine. I recommend the Sharples to anyone thinking of buying a separator. I believe it to be the best machine made, and would not trade it for any I have ever seen. If I could not get another one, I would not sell the one I have at any price.

Yours truly,

W. A. VANGILDER.

#### Obituary Column.

Mrs. Lucy A. Preston, mother of our fellow townsman, F. M. Preston, departed this life on last Sunday morning, at the ripe old age of 83 years. Mrs. Preston had been ill a long time, and her death was due to old age, and a general breaking down of the machinery of the body.

She was a very estimable old lady, loved by all of her acquaintances. Funeral services were held at the home of her daughter, Mrs. Anna Niccum, on Tuesday morning. Interment was made in the Baxter cemetery.

John W. Dunham, an old soldier, and an old resident of this city, died very suddenly Monday of heart trouble, superinduced by dropsical affection. Mr. Dunham was sitting at the table with members of his family, eating his lunch when he was stricken and he passed away in a few moments. He had been ill for some time, but it was not thought his illness was of a serious nature. His wife died only a few months ago. Funeral services were held at the home of a son, L. L. Dunham, yesterday afternoon. Mr. Dunham was a member of the Grand Army, which order took charge of the funeral.

Mr. Dunham is survived by two sons and a daughter. They are L. L. Dunham of this city, Bert Dunham of Hugo, Okla., and Mrs. W. A. Inlow of Oklahoma.

Joe Young, an old colored man, died at his home in the north part of the city last Monday night. Mr. Young had been ill some time, and his death was not unexpected. He leaves a large family.

W. C. Duff, one of the most highly respected citizens in this city, died very suddenly at his home in the Third ward Tuesday morning. At this writing funeral arrangements had not been made.

The W. R. C. and G.A.R. Post will give an entertainment at G. A. R. hall Saturday, March 13, at 7:30 p. m. consisting of dialogues, vocal and instrumental solos, recitations, readings, drills, etc. Admission 10c.

The Good Luck turned in 82,000 pounds of zinc ore last week. This was only the usual turn-in, however. The Good Luck is making from 80,000 to 85,000 pounds every week. It is the best producer, everything considered, in the country. The mill is a small one, and can not handle very much dirt, but it does mighty well with the plant it has to handle the dirt with. The dirt from this mine is so rich that it is necessary to run the mill very slowly in order not to run the ore over the steam jigs. The Good Luck company has every dollar invested in the property out, and is now making "clean velvet" every week.

We have for sale a business building in this city on the main business street. One thousand dollars will buy it. It is always rented and is in one of the best locations in town.
